PLC & INDUSTRIAL AUTOMATION ENGINEER

PROFESSIONAL SUMMARY

Electrical and Electronics Engineering graduate seeking an entry-level PLC and Industrial Automation role. Trained in Delta, Siemens, and Allen-Bradley PLCs, ladder logic, HMI, SCADA, VFDs, industrial communication, sensors, motor starters, analog signals, and electrical control panels. Familiar with Delta WPLSoft, Siemens TIA Portal, and RSLogix 500, with project exposure in motor control, automatic star-delta control, sensor-based automation, and PLC-HMI systems.

TECHNICAL SKILLS

PLC & Automation	Delta PLC, Siemens PLC, Allen-Bradley PLC, Ladder Logic, HMI, SCADA, VFD, Industrial Communication, Sensors
Electrical & Control	Electrical Control Panels, Panel Wiring, Panel Termination, Basement Wiring, House Wiring, Motor Control, DOL Starter, Star-Delta Starter
Instrumentation	Analog Signals, Sensor-Based Automation
Automation Software	Delta WPLSoft, Siemens TIA Portal, RSLogix 500
Programming & Database	Java, JavaScript, MongoDB, SQL (Fundamentals)

PROFESSIONAL EXPERIENCE

Electrical Junior Engineer | KNR Constructions | Aug 2024 – Mar 2025

- Performed electrical panel wiring and termination work for residential electrical installations.
- Supported basement wiring and internal electrical work for residential flats.
- Worked on house/residential wiring activities while following electrical safety and quality practices.

INDUSTRIAL AUTOMATION PROJECTS

Motor Control & Automatic Star-Delta Control

- Developed PLC-based motor-control logic using ladder programming concepts for motor operation and automatic star-delta starting.
- Applied knowledge of motor starters, control logic, sequencing, and electrical control-panel concepts.

Sensor-Based Automation with PLC & HMI

- Implemented sensor-based automation concepts using PLC inputs/outputs and HMI-based monitoring and control.
- Applied ladder logic, sensors, HMI interaction, and industrial communication concepts in the project.

INDUSTRIAL AUTOMATION TRAINING & CERTIFICATIONS

Full Automation Certificate | Electrical Dost

Training areas: RLC circuits, PLC, ladder logic, SCADA, HMI, VFD, industrial communication, motor-control concepts, sensors, and analog signals.

MERN Stack Development | NeoG Camp

EDUCATION

Bachelor of Technology in Electrical and Electronics Engineering	Anurag Engineering College, Kodad 2023
Diploma in Electrical and Electronics Engineering	Anurag Engineering College, Kodad 2019
Secondary School Certificate	Krishnaveni Talent School, Huzurnagar 2016

ADDITIONAL INFORMATION

Date of Birth	31 July 2000	Languages	English, Hindi, Telugu
